

# About Us

## Working directly with amazing artisans since 2000!

Eternal Threads is a non-profit, fair trade organization dedicated to establishing meaningful ways to help women and their families living in poverty to increase their income.

**India** - we provide income to women in rural villages whose families typically live on only \$1 US per day.

**Madagascar** - we provide fair trade income for women living in remote rural villages without electricity, water and other basic necessities.

**Nepal** - we provide vocational training and income for young women who have been trafficked and exploited.

**Asia, Africa and the World** - we now work with more artisans in **Ghana, Uganda, Albania, Mongolia, Bulgaria and Guatemala.**

Every product that the women make represents hope for the future and a positive change. Each one tells a story of a talented artisan who can now send her children to school and save for the future with the fair trade income she receives from Eternal Threads.
